- (a) Includes the domestic production and sale of flat-rolled steel mill products including semi finished, sheet, plate and tin mill products as well as all domestic coke operations.
- (b) Includes the domestic production and sale of seamless and electric resistance welded (ERW) tubular steel mill products.
- (c) Includes the production and sale of steel mill products and coke from operations primarily located in the Slovak Republic and Serbia. US Steel Kosice acquired November 24, 2000. US Steel Serbia was acquired September 12, 2003.
- (d) Includes the operating results of U.S. Steel's technology-enabled distribution business serving steel consuming customers. Straightline was closed effective December 31, 2003.
- (e) Includes the operating results of U.S. Steel's domestic mineral interests that are not assigned to operating units; timber properties; and residential, commercial and industrial real estate.
- (f) Includes the production and sale of iron ore (taconite pellets); railway and barge transportation services; and engineering and consulting services. Prior to the sale of US Steel Mining's assets on June 30, 2003, the segment was also involved in the mining, processing and sale of coal.
- (g) Effective with the fourth quarter of 2008, the operating results of the iron ore operations, which were previously included in Other Businesses, are included in Flat-rolled products. Amounts have been restated starting in 2004.

(a) Includes the domestic production and sale of flat-rolled steel mill products including semi finished, sheet, plate and tin mill products as well as all domestic coke operations including the 1314B Partnership beginning 1/1/04.

(b) Includes the domestic production and sale of seamless and electric resistance welded (ERW) tubular steel mill products.

(c) Includes the production and sale of steel mill products and coke from operations primarily located in the Slovak Republic and Serbia. US Steel Kosice acquired November 24, 2000. US Steel Serbia was acquired September 12, 2003.

(d) Includes the operating results of U.S. Steel's technology-enabled distribution business serving steel consuming customers. Straightline was closed effective December 31, 2003

(e) Beginning January 1, 2005, the U.S. Steel Real Estate segment was combined with Other Businesses segment

(f) Includes the production and sale of iron ore (taconite pellets); railway and barge transportation services; engineering and consulting services; and beginning on January 1, 2005 real estate activities. Prior to the sale of US Steel Mining's assets on June 30, 2003, the segment was also involved in the mining, processing and sale of coal

(g) Effective with the fourth quarter of 2003, benefit expenses for current retirees are no longer allocated to the reportable segments and Other Businesses, and revisions were made to other corporate cost allocation. Accordingly, certain amounts have been restated to conform to fourth quarter 2003 segment presentation

(h) During the fourth quarter of 2005, USS changed its method of determining the cost of inventory from the last-in first out method to the first-in, first-out method. Results have been adjusted from those originally reported to apply this change retrospectively.

(i) Effective with the fourth quarter of 2008, the operating results of the iron ore operations, which were previously included in Other Businesses, are included in Flat-rolled products. Amounts have been restated starting in 2004.

* Calculated Sales represent revenues from the sale of steel products only and is calculated as shipments times average realized price per ton.

** Customer Sales includes sales of steel, steel production by-products, and coke and coke by-products.

(a) Beginning January 1, 2005, the presentation was changed to reflect income (loss) from investees, net gains on disposal of assets and other income as part of operating expenses rather than as part of revenue and other income (now referred to as net sales). This change was made so that U. S. Steel's Statement of Operations is more comparable to those of competitors and other manufacturing companies.

(b) Beginning October 31, 2007 results reflect the acquisition of Stelco (now U. S. Steel Canada)

(c) Effective with the fourth quarter of 2008, the operating results of the iron ore operations, which were previously included in Other Businesses, are included in Flat-rolled products. Amounts have been restated starting in 2004.

* Calculated Sales represent revenues from the sale of steel products only and is calculated as shipments times average realized price per ton.

** Customer Sales above includes sales of steel, steel production by-products and coke.

*** US Steel Kosice acquired November 24, 2000. US Steel Serbia acquired September 12, 2003

(a) Beginning January 1, 2005, the presentation was changed to reflect income (loss) from investees, net gains on disposal of assets and other income as part of operating expenses rather than as part of revenue and other income (now referred to as net sales). This change was made so that U. S. Steel's Statement of Operations is more comparable to those of competitors and other manufacturing companies.

(b) During the fourth quarter of 2005, USS changed its method of determining the cost of inventory from the last-in first out method to the first-in, first-out method. Results have been adjusted from those originally reported to apply this change retrospectively.

- a) Based on annual raw steel production capability of 5.0 million tons prior to September 12, 2003, and 7.4 million tons thereafter (467 thousand tons in 2000, based on annual capability from November 24, 2000, date of acquisition of US Steel Kosice)
- b) Excludes intersegment transfers.
- c) Includes U. S. Steel Canada beginning 10/31/07
